🎓 EDUCATION

Vellore Institute of Technology, Vellore,
B.Tech in Computer Science and Engineering with Bioinformatic

Aug 2021 – Apr 2025
Vellore, India

🎯 TECHNICAL SKILLS

- **Languages-** (Solidity, Python, Rust, C++, Java, SQL, HTML/CSS, JavaScript, R, C)
- **Frameworks-** (Truffle, Hardhat, Wagmi, Web3js, Etherjs, Chai, Mocha, React.js, Node.js, Express.js, Git.)
- **Tools-** (RemixIDE, Metamask, Replit, Vercel, GitHub, VSCode)
- **SoftSkills-** (Leadership, TeamManagement, ContentWriting, PublicSpeaking, TimeManagement)

📁 PROJECTS-

Equistart -The DAO suite, / Solidity, Web3, Truffle, Ganache ☑

- Coded Smart Contracts for the functioning of the DAO.
- It provides an end-to-end user experience for their organization, with features such as-
 - Deploy ERC20, Enable CrowdSale, Governance
- Deployed and tested the contracts locally using Truffle and Ganache, and deployed a prototype on the Play Store.

TradeMutual, / Solidity, Web3, Truffle, Ganache ☑

- I have coded smart contracts to enable the project's functionality.
- We provide a user-friendly experience for investing in cryptocurrency. Our team of experienced traders will trade on your behalf and generate good returns.

CO2AX, / Solidity, Web3, Truffle, Ganache ☑

- I have coded smart contracts to enable the project's functionality.
- CO2AX is a decentralized platform that incentivizes major companies across various sectors to reduce their carbon footprint by tracking and taxing their greenhouse gas emissions.

🏆 AWARDS

Theme Prize winner- DAO, BuildWithCelo

- Coded Smart Contracts for the functioning of the DAO.

👤 LEADERSHIP / EXTRACURRICULAR

Blockchain Lead, IET-VIT

Feb 2023 – present

Mentoring the technical team(70+) members of IET-VIT, while constantly increasing their exposure to new and upcoming technologies and opportunities. The team projects are available Github ☑ . Additional Information about the chapter is accessible at iet-vit.tech ☑
